

# BEING IN BALANCE

Lisa van Roode

## Introducing: Quantum Frequency

An innovative, energetic exploration into your body and soul, providing a holistic perspective on your well-being.

Unveiling insights into:

Psycho-emotional aspects

Pathogens

Micro-organisms

The scan serves as a beacon, offering profound insights into your current state, guiding our focus during the retreat. Your desires, extracted from the scan, form the cornerstone of our journey.

The session unfolds in 3 distinctive phases:

1

**Scan:** our specialised technology measures your body, organs and even chromosomes, using headphones with a sensor.

2

**Diagnosis:** collaboratively, we interpret the scan results to pinpoint any imbalances paving the way for a tailored approach.

3

**Treatment:** a comprehensive approach awaits, delineating allergens, ideal superfoods for your body and a deep dive into your emotional landscape.
